Don Klima, Director
Office of Federal Agency Programs
Advisory Council on Historic Preservation
1100 Pennsylvania Avenue, NW, Suite 809
Washington, DC 20004

Re: Section 106 concerns in Chatham, VA, your February 10 letter to us and Dr. Ethel Eaton's letter (Virginia DHR) to you on April 7.

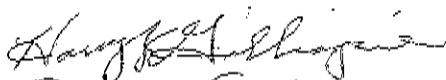

Dear Mr. Klima:

Enclosed are copies of a recent letter from Kathleen Kilpatrick (Virginia DHR) to David Paylor (Virginia DEQ) and our reply. Ms. Kilpatrick's letter includes a finding of "No Adverse Affect" to historic properties in the Columbia Forest Products situation here in Chatham, based on information provided to her by DEQ. Our reply details the very significant errors of fact contained in the DEQ information. As a result, we believe that the finding of "No Adverse Effect" is without factual basis and therefore erroneous.

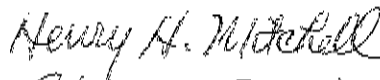

To the best of our knowledge, the air permit in question has not yet been issued. In the meantime, associated construction and preparations appear to go on at the factory, and neighborhood conditions continue to deteriorate to the great burden, financial and otherwise, of its residents. We very much need your assistance in resolving this seemingly intractable problem, even moreso now that DEQ officials have intervened by providing what appears to us to be false and quite misleading information.

Please contact us if you need further information. Thank you very much for your attention and assistance.

Yours truly,

Harry & Sylvia Gillispie
